Metric Bonus Points	N/A	15 of 26	Below Expectations
Cumulative Score	83.76	9 of 26	Above Average

PERFORMANCE REVIEW

Abby had a strong quarter overall, finishing 9th out of 26 servers/bartenders with a cumulative score of 83.76 at the A4 level. You consistently delivered solid bar-driven results, ranking 9th of 26 on PPLBW at \$7.70 (just under the \$8.00 benchmark) and 10th of 26 on GPG at \$0.95 (near the \$1.00 benchmark). These numbers reflect good product knowledge and a steady ability to pair beverages with guest preferences. Your results show reliable performance across shifts and a positive presence that supports Bubba Gump's welcoming, high-energy guest experience.

Next quarter, the biggest opportunity is increasing overall check averages and improving program participation. Your PPA was \$49.45, ranking 17th of 26 versus the \$55.00 benchmark, so let's focus on consistently suggesting appetizers, premium entrées, and add-ons early in the meal and using confident, specific language to guide choices. On Landry's Select Card, your ratio of 1 in 163 (13th of 26) is below the 1 in 100 goal; aim to mention LSC to every table, use a simple benefit-based script, and ask for the sign-up at the payment touchpoint. Goal for next quarter: raise PPA to \$52+ and improve LSC to 1 in 125 or better while sustaining your top-10 beverage rankings.
