Metric Bonus Points	N/A	15 of 26	Below Expectations
Cumulative Score	83.76	9 of 26	Above Average

PERFORMANCE REVIEW

Abby had a solid quarter as a Server/Bartender and continues to represent Bubba Gump's friendly, guest-first vibe. Your cumulative score of 83.76 places you 9th out of 26 overall (A4 level), which shows strong consistency compared with the team. Beverage-related performance was a clear highlight: PPLBW came in at \$7.70 (9th of 26, just under the \$8.00 benchmark) and GPG was \$0.95 (10th of 26, near the \$1.00 benchmark). These results suggest you're comfortable making suggestions and converting opportunities at the bar and on the floor, helping drive check growth while maintaining an upbeat guest experience.

Next quarter, the biggest opportunity is lifting total check average and strengthening loyalty capture. Your PPA was \$49.45, ranking 17th of 26 versus a \$55.00 benchmark, so focus on consistent meal add-ons (appetizers to start, premium sides, and dessert/after-dinner drinks) and using specific, confident language when you recommend them. Landry's Select Card performance also has room to improve at 1 in 163 (13th of 26) against a 1 in 100 goal—aim to mention LSC early in every interaction and tie it to a guest benefit (priority seating, rewards). Goal for next quarter: reach \$52+ PPA, hit \$8.00+ PPLBW, and improve LSC to 1 in 125 or better.
